

Catalog of Recycled Products

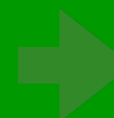

- We provide reliability and certainty on the plastics market recycled plastics;
- We provide consistently high-quality recycled materials and regular deliveries;
- We obtain specific types of material to make regranulate to individual customer order;
- We control the quality of the material we deliver.
- We take samples in accordance with standards to ensure that laboratory tests reflect the actual quality expected by the recipient of our material;
- Our dedicated testing laboratory conducts a number of tests to verify quality and continuous technical assessments to ensure that the recipient receives the right product.

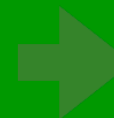

TECHNICAL DATA SCHEETS:

Recycled Granules – rLDPE Blue

EuCertPlast

Name of LDPE-Blue	
Country of origin	Poland
Granule size	2 -5mm
Volume available	200 MT per month
Packing	Big bags Up to 1200 kg
Mesh size during	No 100-120
Suggested	Blowing
Cerification	EuCertPlast

Properties	Values	
Melt Flow Index [MFI] 190°C/2,16 kg	0,34	g/10min
Melt Flow Index [MFI] 190°C/5,00 kg	1,42	g/10min
Density	0,9-0,91.	[g/cm ³]
Chalk content	<4.	[%]
Melting temperature	160 – 170	°C
Other impurities (metal, glass, wood)	0	[%]
Filtration	Laser sieve	120-150 μm

PRODUCENT REGRANULATÓW: PP, LDPE, HDPE.
